

OL 56-427A

Mr. Egbert W. Thompson
P. O. Box 1034
Alexandria, Virginia

Dear Mr. Thompson:

Thank you for your letter of February 1, 1956, suggesting that we consider your property at Woodbridge, Virginia, as a possible site for the location of our proposed headquarters building.

Our answer to your letter has been delayed until the National Capital Planning Commission had completed its review of our proposal to use a portion of the Bureau of Public Roads property at Langley, Virginia. As you may know, we have received the final report of the Planning Commission approving our selection of the Langley site. We have decided, therefore, to proceed with the construction of the Central Intelligence Agency headquarters building at that location.

Your interest in this matter is appreciated.

Sincerely,

L. K. White
Deputy Director
